P3a. Description (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

The structure is a single story commercial unit, end gabled toward State Street. The gabled side consists of vertical weather board siding, the roof material is an asphalt/composite. The exterior walls are clad with simulated brick on the lower half and horizontal wood boards above. Windows appear to be encasement-style in aluminum framing. The structure is located in a residential/commercial area, hence, it has the appearance of a single-family dwelling, and has gone through numerous renovations. The present condition is fair.

The setting is a mix of small-scale residential and commercial/industrial. The building fronts on State Street and is surrounded by single- and multi-family residential dwellings and commercial/industrial buildings.
